

Downtime Massage & Skincare Opens On 10th Avenue

Downtime Massage & Skincare, the new spa on 10th Avenue @ 49th, began as a spa in a 2 bedroom apt on 50th & 9th. After 6 years, and seeing 4000 people last year in a private apt, our clients' good will brought us private investors who have helped us expand and build a Spa setting which will allow Downtime Massage & Skincare the oxygen and space to continue to grow.

Greg, owner of the spa (as pictured) says: "I am a firm believer in my ability to be a caretaker and to give kindness which is my nature. Our business shows that intent each day as we want to relieve daily stress in peoples lives and support change and growth. What makes our Spa special," continued Greg, "is the mastery I have in Body Sugaring, the oldest form of hair removal in the world. I boil and make my own sugar, something introduced to me by a Turkish Family who are dear to me. Hair then grows and keeps people coming back for maintenance. Of course, we also have a full spa menu. We offer massage with Aromatherapy Associates Oils to address emotional and physical well being. Each massage we offer being a treatment & we offer several types of massage. We also offer Skinceuticals, facials & products, a medical line with huge results."

About the staff, Greg said: "They are a team of individual healers, body workers, estheticians, and massage therapists. Each one of them is special and different in their own right. A chef for 10 years, I know 101 ways to cook an egg. So in my business each staff member complements the other. We could be considered the SPA COMMUNITY GARDEN! For all of Hell's Kitchen to appreciate!"

Greg's entire career has been dedicated to helping people understand and meet their bodies' needs,

first as a professional chef and then as a massage therapist and esthetician. Accomplished in numerous massage techniques: including Shiatsu, sports and Swedish massage; also certified in Thai massage by the Traditional Medicinal Hospital of Thailand. A Licensed Esthetician, certified by The Aveda Institute, Greg trained with top-tier cosmetology companies - like La Prairie, Sugar of the Nile and SkinCeuticals - in the use and administration of their products. At eighteen, when Greg moved to London he lived with a Turkish family who boiled sugar and refined it into a paste used for centuries for hair removal. He then studied under renowned pastry chef Ewald Notter, who taught him to spin and pull sugar. Combining these two skills, Greg opened Downtime Massage & Skincare. A California native, Greg has made New York City his base of operations for the last 15 years.

Special Summer Offer: 20% off Treatments plus product specials. Come in for a FREE 30 minute facial & Greg will set you up with a skincare regimen. Mark Burleson, General Manager, is available to help you orchestrate your TLC.
